

AQUAGEM®

INVERTER FOR SAVING

InverEco

Thanks to InverSilence technology, the motor speed can be controlled precisely by 1 round. When users need a backwash, the pump can run at 100% capacity. For daily filtration demand, which needs small flow rate, the pump can run at low capacity, which is extremely quiet and energy efficient. The life span is also longer due to Aquagem InverSilence technology.

UP TO 10 TIMES SAVING

One year save energy: **7884 kWh**

Energy consumption comparison

Electricity bill comparison

Assumptions: A 4 season pool size in 60m³, averagely run 16 hours in 365 days. Electricity price is €0.25/kWh.

NOISE DOWN TO 36dB

SMART & SIMPLE INTERFACE

4 Timers for daily operation

Running capacity from 30%~100%

Power consumption reading

One-click backwash

OTHER FEATURES

Efficiency class of motor: IE4

For increased efficiency and to reach extreme silence performance

Soft Start

Start from 0 amp to rated amps steadily

External control optional : Digital input

To control your pump with more choice

TECHNICAL PARAMETER

Model	Advised pool volume (m³)	P1 (kW)	Voltage (V/Hz)	Qmax (m³/h)	Hmax (m)	Circulation Flow (m³/h)	
						10m	8m
